

BIOGEOMETRY

ADVANCED TRAINING

Six-day training of theory and practical
comprising Levels 4,5,6

with Kris Attard
Certified BioGeometry Instructor

AWARENESS

WORKSHOPS

ADVANCED ENERGY QUALITY BALANCING

As always we firstly revisit and take key topics further such as **Colour Placement**; the directionality of Biosignatures; working with Biosignatures (including Dr. Karim's new information on directionality); and so on.

Repairing the Cracked Steps of our life. Taking this powerful technique to deeper levels by using BioSignatures to heal internal energy blocks from collective matrixes and other factors beyond us, practicing this both individually and as a group. A special Biosignatures chart will be provided.

Using Qualities to balance/heal, including numbers, colours, angles, patterns and polarity. With numbers we use both BG Numbers and Spot Numbers that balance a specific circumstance.

The Bi-Location technique. Using a special emitter pattern (provided) we create a linkage between a sacred power spot and a space, house, person, body organ etc that needs healing.

The energy of intent and emotions. Working with how different states of mind, thoughts and emotions emit different qualities, we prove this with several interesting exercises.

We also discuss **detrimental energies** including gridlines and how to work safely with them; the deeper ramifications of electro-magnetic energies due to compression waves; entities and invasive energies; emotions and negativity; measures to avoid energy contamination; dealing with impregnation; and finally Dr. Karim's special prayer of activating the Light within everything.

Working with **Planes of Nature.** Ancient and modern concepts of the multi-part geometry of the soul; the geometry of the Planes, shapes that resonate with each plane and how to use them; using a special chart we learn a technique of testing on which plane a problem is located or originates from; the IKUP.

Power Spots. What they are, their energy and consciousness, how to commune with them and connect to them; locating power spots in the sky; making a simple BG3 emitter tube; you will **create a 3D grid that links earth to sky power spots** and learn how to do it with your locality.

We also work with **the Net**, a very powerful energetic technique that can be used to cleanse anything from our food to a person or an entire building.

HUMAN ARCHETYPE RULER

Exciting new dimensions for
your energy work

An important step in BioGeometry was Dr. Karim's discovery of the once secret Human Archetype Code hidden in ancient Egyptian structures. Even more significant is the practical application that emerged from this discovery: the **Human Archetype Ruler**. This tool is a breakthrough in energy science, one you will learn and use in this Advanced training. The Ruler will open new dimensions of possibility in your BioGeometry and other energy work.

Some of these possibilities:

- Measure levels of BG3 and get comparative results before and after any kind of intervention
- Measure chakra energies to discern which are open and which are closed
- Architects and designers can assess the energy effect of structural changes just on a layout plan
- Assess what effect a food, supplement, stone, prayer, etc has on you, or which organs / chakras
- Check effect of your BioGeometry techniques, including which Plane of Nature they are effecting
- Focus any energy measurement on a specific Plane of Nature

The Ruler also functions as an **emitter**, distantly transmitting to a space or person the Human Archetype qualities, or any other qualities we place on it such as numbers, Biosignatures, energetic essence of a supplement, etc.

The Ruler can be purchased at the start of the training. As part of your workshop package, Kris Attard is including a free additional set of laminated strips designed for working with the Ruler on organs and body anatomy parts, and number qualities.

PREPARING FOR THE ADVANCED TRAINING

To get the best out of this training, we suggest you brush up on your BG and radiesthesia techniques, especially BG3 detecting, finding personal wavelength, assessing clockwise vs anti-clockwise rotation on Neutral Pendulum. If you haven't done so, you should also read Dr Karim's book **BACK TO A FUTURE FOR MANKIND: BIOGEOMETRY** since in the book Dr Karim explains many advanced concepts from the training. (Available from Amazon in print or Kindle ebook version)

HORIZONTAL AND VERTICAL DIAL PENDULUM SET

The set of 2 Horizontal & Vertical Dial pendulums has now replaced the Virtual Cone pendulum as the standard BG tool for measuring the 12-band energy spectrum. Thanks to new sourcing of materials and manufacture and a subsidised price, this tool is now more accessible than ever. Besides being more accurate than the VCP, the Dial pendulums have special attachments that make them sensitive detectors of Hartmann, Curry and Benker grids, being a safer tool to use with grids.

FURTHER TRAINING

This advanced training serves as a pre-requisite to attend Dr. Karim's annual Special Topics seminars, or to enrol in the BioGeometry Licensed Home Balancing Practitioner training.

ADVANCED BIOGEOMETRY DESIGN

This module takes Design Principles of BioGeometry further in both concept and understanding, and present some practical new techniques that will give you more methods for producing designs or objects which emit harmonising qualities in the spaces they occupy, or to the viewer.

We address the **Forming Process of Nature**, the original template of harmonious design which the ancients sought to emulate through the use of **harmonics**; the difference between nature and man-formed structures; creating living buildings and designs; how to introduce this level of harmony into our lives and designs.

The **Harmonic Tables** are an extremely useful tool to any BioGeometry or feng shui practitioner, architect or designer as they enable one to construct any design, room, item, etc, with dimensions that emit BG3 in themselves. On the subject of numbers, we also address working with **BG numbers** up to 200 and the effects of different numbers on our body.

The **Energy Key** will be revisited, and in particular various methods of **balancing offset rooms** and other situations where the Energy Key is upset. This includes room openings, doors and windows, stairs and the principle of harmonising the energy entering a house or a room.

The BioGeometry Harmonic Scaling system; using BG3 ring emissions from vertical objects; BG3 from harmonic placement of pillars, columns and walls.

This also takes us to **working with earth energies** both in ancient and modern structures. In particular we explore power spots and their role in town planning as well as possibilities for our structures.

The Threshold Principle. This factor which was a crucial feature of all sacred rituals and traditions from ancient times till today, can dramatically enhance our results in BioGeometry and other practices when deliberately applied. We explore spatial, temporal and conceptual thresholds and how to use them to good effect in our lives and our work

Energy memory of forms. Every stroke you draw contains an invisible energetic component and memory that links it with other levels of reality; we explore the energy component of lines, circles and arcs; resonance of shapes and symbols

YOUR INSTRUCTOR

Kris Attard is a personal development teacher from Malta who has been involved in the study of ancient wisdom and holistic science for many years. He is the first certified BioGeometry Instructor in Europe, having trained with and been personally certified by the founder of BioGeometry, Dr Ibrahim Karim in Cairo, Egypt. Kris has been teaching since 1995 and has conducted workshops in 17 countries on intuition, sacred geometry and related subjects. His clients have ranged from public to specialised groups including major businesses. He is also senior instructor of MindScape, a form of intuition training, a trained Feng Shui consultant and an Instructor of de Bono Six Thinking Hats. Kris' training background has included mind dynamics, gestalt psychotherapy, Systems Thinking, BodyTalk System energy medicine and spiritual and esoteric philosophies. He is the author of the MindScape Manual and is publishing research on sacred geometry, particularly with regards to the ancient Neolithic temples of the Maltese Islands, of which he has conducted extensive research.
